

ADP Run Payroll is a **Compatible** **Payroll Solution**

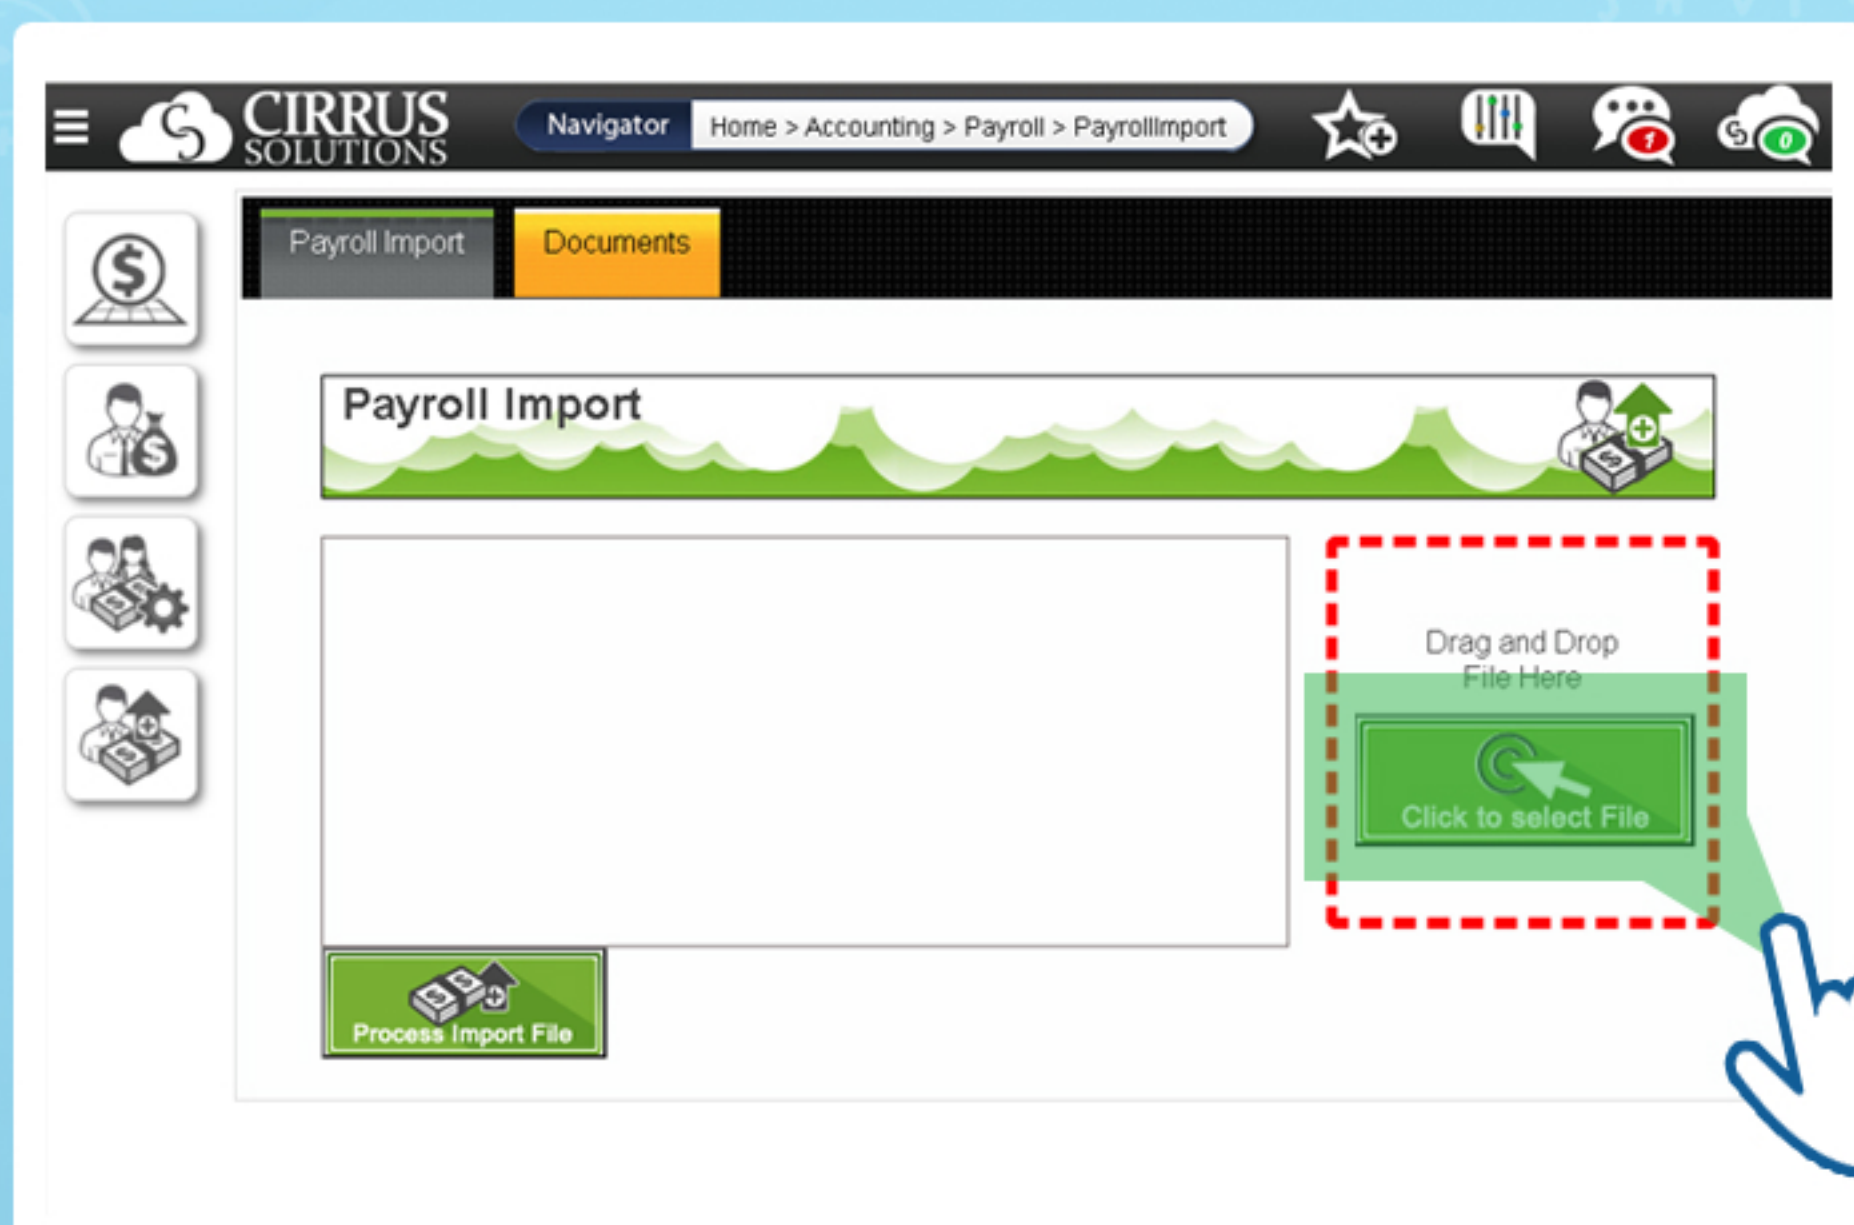

Cirrus Solutions is excited to announce that ADP Run payroll is a compatible payroll solution for our dealers. ADP Run's mapping system will allow our dealers to map their payroll to general ledger accounts and be able to import their payroll directly into Cirrus with just a drag and drop.

You will be able to map by employee or by department

ADP handles all State and Federal tax filings

By working with ADP Run, your payroll entry will be drastically reduced and you will be assured of accurate figures and reporting in the Cirrus system.

“ If you are interested in converting to ADP Run, you will want to do that at the end of this year. We anticipate approximately 1 hour of set up time in ADP Run and import for Cirrus but we are offering any dealer who switches up to 3 hours set up time at no charge. This will include assistance setting up your system in ADP as well as making sure your import file is correct for your first payroll. ”

If you are interested in this opportunity please contact Laura@Cirrussolutions.com and we will get you started
