Cirrus Solutions Releases Century Business Solutions EMV Terminal
Terminal Credit Card Chip and Apple Pay Processing

Palm City, FL: Cirrus Solutions announces the release of its newest integration feature within their Dealer Management System. Via the ongoing partnership with Century Business Solutions, dealers using their merchant services within the Cirrus DMS can now process credit cards using EMV terminals including credit card chip reading and Apple Pay.

“This new enhancement further expands our relationship with Century Business Solutions and allows dealers to securely process credit and debit card transactions with the EMV/chip card technology in Cirrus. Our core philosophy of full integration in a user friendly, cloud based and modern Dealer Management System continues to evolve with this addition.” says Patrick West, Owner and founder for Cirrus Solutions.

The new feature works throughout the DMS wherever payment transactions are occurring including parts retail sales, work orders and RV Deal sales. The terminal can process Visa, Mastercard, AMEX and Discover cards seamlessly right within Cirrus.

Cirrus Solutions, Palm City, FL is a dealer management software created by dealers for dealers. The fully integrated, comprehensive Cloud-based platform allows dealers to streamline their processes, understand business profitability and drive more sales. The modular system integrates with external programs and allows dealers to manage inventory, deals, service, parts accounting and more. The integrated website automates presentation of inventory on the web simply by adding units into the system. Call today for a free demonstration. 772.223.1294 www.cirrussolutions.com.

About Century Business Solutions: Century Business Solutions is a technology-based merchant services provider that has developed and provided payment processing technology to over 10,000 merchants in the U.S. and Canada since 2004.
